Section 3 Customer Owned Service Line Cost			
<input type="checkbox"/> _____ (please initial here) Applicant agrees to pay Orwell Natural Gas for the customer-owned service line and installation at the rate set forth in the Natural Gas Service Proposal. The Applicant hereunder acknowledges that there will be no tamping, seeding or mulching on the customer-owned service line. Applicant further agrees to pay Orwell Natural Gas in full for the service line before Orwell Natural Gas will activate service. This cost is in addition to the tap fee. OR <input type="checkbox"/> _____ (please initial here) Applicant agrees to have customer-owned service line installed by other qualified contractor, which has been previously qualified by Orwell Natural Gas. Name of Qualified Contractor (if applicable) _____			
<u>Natural Gas Distribution Rate</u> Applicant agrees that gas service hereunder is subject to the Rules, Regulations and Rates Governing the Distribution and Transportation of Gas filed with the Public Utilities Commission of Ohio by Orwell Natural Gas and any subsequent revisions thereof, and to the lawful orders of regulatory authorities having jurisdiction. NOTE: The service line is owned by the customer, but will be maintained by ONG . ONG will perform the required leak inspections and monitor the service line for corrosion up to the inlet of the gas meter. All buried piping after the meter is the responsibility of the customer and should be periodically inspected for corrosion and leakage. Buried lines that are not properly maintained may be subject to the potential hazards of corrosion and leakage.
